INFORMATION DISCLOSURE STATEMENT

Mail Stop PCT
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In order to comply with 37 CFR 1.97 and 1.98, attached hereto is a copy of Form

PTO/SB/08.

A copy of the International Search Report in connection with counterpart International Patent Application No. PCT/JP2003/015970, mailed March 23, 2004 is provided herewith. Also provided are copies of all the foreign patent documents listed on the Form PTO/SB/08.

Pursuant to MPEP §609 the requirement for a concise explanation of the relevance of each foreign patent document is satisfied as follows:

1. The documents listed below are identified in the International Search Report and English language abstracts are provided for each.

JP 09-271488

JP 09-038134

JP 11 332913

JP 10-277091

JP 10-127687

JP 2001-178770

2. The document listed below is identified in the International Search Report.

JP 3024357

3. The document listed below is discussed in the Background of the Invention Section of the application itself and English abstract provided.

JP 2002-165820

In accordance with MPEP Sections 609 and 707.05(b), it is requested that each document cited (including any cited in applicant's specification which is not repeated on the attached Form PTO/SB/08) be given thorough consideration and that it be cited of record in the prosecution history of the present application by initialing Form PTO/SB/08 next to the document. Such

initialing is requested even if the Examiner does not consider a cited document to be sufficiently pertinent to use in a rejection, or otherwise does not consider it to be prior art for any reason, or even if the Examiner does not believe that the guidelines for citation have been fully complied with. This is requested so that each document becomes listed on the face of the patent issuing on the present application.

The present Information Disclosure Statement is being submitted in compliance with 37 CFR 1.56, but the citation of such document is not to be construed as an admission that such document is necessarily relevant or prior art. No representation is intended that the cited documents represent the results of a complete search, and it is anticipated that the Examiner, in the normal course of examination, will make an independent search and will determine the best prior art consistent with 37 CFR 1.104(a) and in the course of each search, will review for relevance every document cited on the attached form even if not initialed.

This communication is being submitted with the initial filing of the application, accordingly no fee is required. Early and favorable consideration is earnestly solicited.

Respectfully submitted,

Cheryl F. Cohen
